**AS-NEEDED EMERGENCY FLOOD CONTROL AND
ROAD MAINTENANCE FACILITIES REPAIR PROGRAM
CITY OF LOS ANGELES, SAN PEDRO, SUPERVISORIAL DISTRICT 4
PROJECT NOS. 655 AND 3897 (PASEO DEL MAR) EMERGENCY REPAIR**

This memo serves to notify your Board of emergency repairs carried out under the as-needed, on-call emergency contract with W.M. Lyles Company, Inc., and Steve Bubalo Construction Company, Inc., approved by your Board on July 5, 2006. The term of this contract is five years with month-to-month renewals.

As previously reported, a multiagency effort is being coordinated in response to an active landslide that is occurring within the City of Los Angeles on Paseo del Mar in the San Pedro area. The ground movement has already caused cracks and fissures that have forced the closure of Paseo del Mar between Weymouth and Western Avenues.

Public Works has identified two Los Angeles County Flood Control District storm drains within the slide area that have been displaced and must be rerouted away from the landslide area. These drains provide flood protection to approximately 1,800 residents in the adjacent San Pedro neighborhood.

Public Works engaged W.M. Lyles Company, Inc., to perform emergency relocation of the storm drains. The current estimated cost for relocation is \$1.5 million. Construction is scheduled to be completed by mid-December. We have obtained all necessary regulatory permits. We are coordinating efforts with the City of Los Angeles, Department of Beaches and Harbors, and other affected agencies.

If you have any questions, please call me or your staff may contact Diego Cadena, Deputy Director, at (626) 458-4008 or dcadena@dpw.lacounty.gov.
